

PULASKI SCHOOLS CHILD FIND SCREENING

Do you have a young child age 2 years 9 months or older, but not yet in 4K? Do you have concerns about his or her behavior, social skills, readiness, speech/language skills, or other areas of development or would you just like reassurance that s/he appears to be "on-track"? We can help!

Developmental screenings are provided by our Early Childhood staff at no cost to parents and hearing and vision screening is also completed by our nursing staff. You'll get feedback that day about ideas, possible resources, and whether or not more in depth evaluation appears warranted. If you live within the Pulaski Community School District and are interested in screening for your child, please **call Alissa at (920) 822-6021** to set an appointment or to learn more! ****If your child is already in 4K, contact your child's teacher with concerns.****

Child Find screenings will be held at Lannoye Elementary School on the following '23-'24 dates:

September 1

October 6

November 3

December 1

January 5

February 2

March 1

April 5

Additional screenings may be set if needed. We will also work to find another option if you are not able to bring your child in for screening on the scheduled screening dates.
