

Student learning feedback is available in Skyward Family Access. You can view feedback on learning by going to Skyward Family Access under attachments. A hard copy will be mailed out Wednesday of this week.

PCMS Grading Practices:

- Grades are determined using a collection of evidence, emphasizing the student’s most recent and frequent level of performance.
- **It is important to note that grade feedback of a 2 on new skills is appropriate. It would be of note to see an IE (Insufficient Evidence) or a 1 needs support on standard.**
- Separate grades will be given for academic and non-academic skills (life skills).
 - Life Skills will be in 4 categories:
 - **Teamwork**
 - **Respect**
 - **Responsibility**
 - **Perseverance**
- Parents are encouraged to access course content, assignment completion and formative feedback in Canvas.
- Parents are encouraged to access grades quarterly using Skyward. A hardcopy report card will also go home quarterly.
- For more detailed information on Standards Based Learning please see click [here](#).

PCMS Proficiency Scale:

Not Yet Assessed	Insufficient Evidence	Needs Support on Standard	Approaching Standard	Meets Standard	Exceeds Standard
*	IE	1	2	3	4
Student has been exposed to the standard but has not been assessed on the skill	Student shows insufficient evidence of understanding the standard or not enough attempts to demonstrate proficiency	Student shows emerging evidence of understanding the standard and needs significant support and assistance to apply the skill	Student shows progress of understanding the standard and needs some support to apply the skill	Student shows a proficient level of understanding the standard by applying the skill	Student consistently exceeds performance expectations by demonstrating in-depth understanding of complex concepts with the ability to apply that knowledge and skills in extended or new contexts
